Cybereason Managed Detection and Response (MDR) Mobile App

THE POWER OF THE SOC AT YOUR FINGERTIPS

Cybereason MDR Mobile Application

The Cybereason MDR Mobile Application helps organizations respond to threats more effectively and efficiently with instant access to MDR dashboards, the ability to take immediate response actions, and two-way communication with our Global SOC Teams.

By eliminating communication latency periods and enabling instant response actions, customers greatly reduce their time to remediation and give themselves the best chance to prevent a breach.

Key Benefits:

- Visibility into any on-going threats from their mobile device
- The ability to respond to and isolate a threat with the click of a button
- 24x7 communication with our Global SOCs

Cybereason MDR Mobile App

THE CYBEREASON MDR MOBILE APPLICATION

Clear, Fast, Efficient Communication: Receive real-time communications, including MalOp alerting, triage and response actions. Stay in constant contact with the Cybereason Global SOC to immediately address potential threats.

Network Visibility: Leverage real-time visibility into the network's attack surface, ongoing threats and MalOps, all within the application's dashboards and user interface.

Immediate Response Actions: Authenticate and approve two-step response actions initiated by Cybereason's Global SOC, reducing adversarial dwell time, delayed remediation, and lateral movement.

AVAILABLE FOR IOS AND ANDROID

CYBEREASON MDR

Cybereason MDR is a fully managed detection and response security solution that provides proactive threat hunting, detection and remediation 24x7x365. Driven by the Cybereason Defense Platform in combination with a full service security operations center (SOC), the Cybereason MDR solution will give organizations deep visibility and context into malicious operations (Malop™) - across all endpoints on a network. Acting as a stand alone security solution or as an additional layer of security to an existing security practice, Cybereason MDR immediately matures any organization's security posture.

BENEFITS

- Visibility into alerts and MalOps
- Snapshot of console dashboards and ability to generate reports
- Identify vulnerabilities and compromised machines
- Ability to contact a Cybereason Defender from anywhere, anytime
- Approve two-step response actions
- Read the most current security news, trends and information from Cybereason Defenders

- Dashboards & reporting
- Real-time view of the network's cyber posture
- Two-way communication
- Contact management settings
- Two-step remediation approvals
- Up-to-date news and alerts
- Available in English, Japanese, German and French

ABOUT CYBEREASON

Cybereason is the champion for today's cyber defenders with future-ready attack protection that extends from the endpoint, to the enterprise, to everywhere. The Cybereason Defense Platform combines the industry's top-rated detection and response (EDR and XDR), next-gen anti-virus (NGAV) and proactive threat hunting to deliver context-rich analysis of every element of a malicious operation (Malop). The result: defenders can end cyber attacks from endpoints to everywhere.
