

**A powerful identity governance  
and administration (IGA) solution**  
to manage and secure identities  
across your organization.

# Why is AD360 a cut above the rest?

## **Identity lifecycle management:**

From provisioning to deprovisioning and every change in between, manage identities across Active Directory (AD), Microsoft 365, Exchange, Google Workspace, and more from a single window.

## **Real-time auditing and alerting:**

Ensure compliance, prevent unauthorized access, mitigate threats, and more for your AD, file servers, Windows Server, Microsoft 365, workstations, and Exchange with over 1000 preconfigured reports.

## **Identity password management and IT self-service:**

Empower users to reset passwords and unlock accounts securely by themselves, enforce them to adhere to advanced password policy settings, and automatically sync AD passwords in real-time across multiple on-premises and cloud applications.

## **Multi-factor authentication (MFA) for endpoints:**

Fasten endpoint security with MFA. AD360 offers a wide range of authentication factors including biometric, YubiKey, Google Authenticator, push notifications, and SMS verification.

## **Automation:**

Ease the administrative burden by automating user provisioning, deprovisioning, password reset, and other monotonous tasks for AD and Microsoft 365.

## **Delegation and workflows:**

Enhance administrative performance by creating custom help desk roles. Monitor tasks assigned to the help desk technicians by curating workflows.

## **User behavior analytics (UBA):**

Secure privileged accounts, detect insider attacks, prevent identity theft, and more with UBA-powered by machine learning. Receive instant alerts on anomalous logons, privilege escalations, and other activities.

## **Backup and disaster recovery:**

Effortlessly back up and restore AD, Azure AD, Microsoft 365, Google Workspace, and Exchange data.

## **Single sign-on (SSO), comprehensive reporting, and more:**

Enable one-click access to enterprise applications, gain powerful insights into every aspect of your AD, Exchange, and Microsoft 365 ecosystem with over 700 reports, and more.

## **Health and performance monitoring:**

Monitor the health and performance of Exchange Online, Azure Active Directory, OneDrive for Business, Microsoft Teams, other major Microsoft 365 services, and Exchange server around the clock.

# Other salient features

## Flexible licensing model

AD360 features a suite of components to meet your IGA requirements. Pick the components you need, and pay only for them.

## Simple deployment

No complicated prerequisites—deploy AD360 within minutes, and start managing identities instantly.

## Easy-to-use graphical user interface

Leverage a simple and straightforward UI that makes working with the product a cakewalk.

## Mobile apps

Manage identities, passwords, and much more while on the go with fully loaded Android and iOS mobile apps.

Did you know that nine out of every 10 Fortune 100 companies trust ManageEngine with their IT?

## Hear it from our customers

*AD360's offering [are] very good. It is an interesting mix of solutions that caters to various IGA needs arising in our environment. Both ADManager Plus and ADSelfService Plus have gone a long way to simplify and automate our IGA requirements. Product development seems active, and most importantly, ManageEngine support is responsive and helpful across all the products we use.*

**Clive Newport**

Head of IT infrastructure and support  
Vasanta Group

*Just about the best piece of security software that would put a smile on any security administrator.*

**Jacinto Godinho**

Administrator: Quality assurance and IT security  
Al-Ahli Bank of Kuwait

*This deployment was extremely simple and cost-effective. Installation was completed within a matter of minutes. Configuration was simple. [ManageEngine's] support team is always there every step of the way whenever we need a hand.*
