# Cybereason MDR Complete

Everyday organizations are faced with an ever-evolving threat landscape, advanced threats, and persistent adversaries that threaten intellectual property and confidential information. To properly combat these threats, organizations are faced with developing and implementing a robust cybersecurity strategy that requires time, money and expertise. Organizations of all sizes are challenged daily, and struggle to successfully build and staff a successful security operations program.

Cybereason MDR (Managed Detection and Response) offers a fully managed endpoint security solution that delivers around-the-clock protection to ensure that your network is protected from the most advanced threats. The MDR Complete package includes features and capabilities designed specifically to hunt, detect, triage and remediate threats before a breach can occur.

## CYBEREASON MDR DELIVERS REAL VALUE, INSTANTLY

**24x7 Security Coverage**
Cybereason has security operations centers (SOCs) and threat hunters located around the globe, ensuring that your network is monitored and secured every minute of every day.

**Eliminate Alert Fatigue**
The Cybereason Defense Platform detects and triages every alert, aggregating the data and creating a MalOp. The MalOps are aligned to the MITRE ATT&CK Framework providing visibility and context then assigned a severity score.

**Optimize Security Operations**
With automated triage, prioritization and remediation tools, Cybereason MDR gives organizations valuable time back in the day, helping them streamline their security operations and save time and money. Immediate ROI.

**Cybereason MDR Complete delivers**
instant impact and value by reducing costs associated with security training, additional staffing, network maintenance and breach management.

## MALOP SEVERITY SCORE + EXTENDED RESPONSE (XR)

Cybereason MDR automatically assigns every malicious operation a Malop Severity Score that enables security teams to gain further insight into an attack and remediate threats faster with XR. Cybereason's XR technology will:

| | |
|---|---|
| **Detect a threat** | < 1 Minute |
| **Triage a threat** | < 5 Minutes |
| **Remediate a threat** | < 30 Minutes |

*Available as an add-on capability to the MDR Essentials Package

# KEY MDR COMPLETE FEATURES

### Proactive Threat Hunting
Proactively hunt for hidden adversaries using Cybereason technology, analytical expertise, and intelligence. Our team will apply 200+ hunting IOB techniques daily to uncover outlier anomalous activity, continually assess your data, and ensure you do not miss a threat.

### Direct Access to Cybereason Defenders
Cybereason Defenders are ready to help deliver support and answer questions at a moment's notice.

### Malop Root Cause Triage
Root cause triage is provided for every Malop. For any Malop scored as critical, an analyst will conduct a follow-on root cause analysis where, based upon their conclusions appropriate action will be taken.

### Detailed Threat, Malop, and Intelligence Reports
The Cybereason MDR team will keep you apprised of your security posture with monthly cadence threat reports, detailed high-severity Malop reports, and a quarterly threat intelligence report for ongoing intel on the worldwide threat landscape, new research, and attacker techniques.

### Guided and Active Response
Cybereason Defenders will work directly with you and for you 24x7, to stop all threats. Cybereason MDR orchestrates response actions automatically or per request to isolate endpoints, block malicious persistent modules identified as root-cause, and prevent lateral movement.

### Cybereason MDR Mobile App
Available for iOS and Android devices, the Cybereason MDR app gives customers the power of a SOC at their fingertips. Providing visibility and context into every MalOp, the ability to respond and isolate an infected machine, two-way communication with our SOC, and the ability to download blogs and reports - the Cybereason MDR app helps customers secure their networks more efficiently than ever before.

### ABOUT CYBEREASON SERVICES
Cybereason is the champion for today's cyber defenders with future-ready attack protection that extends from the endpoint, to the enterprise, to everywhere. The Cybereason Defense Platform combines the industry's top-rated detection and response (EDR and XDR), next-gen anti-virus (NGAV) and proactive threat hunting to deliver context-rich analysis of every element of a malicious operation (Malop). The result: defenders can end cyber attacks from endpoints to everywhere.
