SEE. SOLVE. PREVENT. FREE.

eG Enterprise Express Free Logon Simulator for Citrix, Omnissa Horizon and Azure Virtual Desktops

Fast, free and incredibly useful. Get started today.

- Simulates the exact steps that your users experience when they log on to a Citrix, Omnissa Horizon or an Azure Virtual Desktop digital workspace
- Tracks the time taken for every step of the logon process: Browser access, authentication, session establishment, enumeration, and application/desktop launch
- Detects logon issues proactively and helps troubleshoot them before end-users are affected
- Tests whether the entire delivery infrastructure is working in concert
- Optimized for Citrix Virtual Apps and Desktops, Citrix DaaS, Omnissa Horizon VDI and RDSH, and Azure Virtual Desktop environments
- SaaS deployment - free forever, no ads, no credit card details required
